

Badger Mountain Geology Hike

Join geologist, George Last, on a 3-mile, 1/2 day hike to the top of Badger Mountain.

Elevation gain=800 ft.

Learn about Lake Lewis, the Ice Age Floods, the Rattlesnake-Wallula lineament, and the basalt-lava flows. The hike starts at the Dallas Road (Skyline) Trailhead and ends at the Canyon Trailhead where a bus will take guests back to Dallas Road.

*Includes:
bus transport between
trailheads*

Duration: 9:00 AM - 1:00 PM

Date: Friday - April 7th

Cost: \$28 / person

Register by April 3rd

Western Scablands of the Ice Age Floods

Ice Age Floods expert

Gary Kleinknecht will lead this tour “upstream” into the Quincy Basin. Guests will see the water’s dramatic erosive power in the Drumheller Channels, Frenchman Coulee, and the giant current ripples of West Bar. Along with several other floods features, guests will visit the Gingko Petrified Forest State Park.

*Includes:
Bus, water, lunch*

Duration: 8:00 AM - 5:00 PM

Date: Friday - April 14th

Cost: \$87 / person

Register by April 7th
